### **Profile**

Caleb Obene is a business analyst and a full-stack developer from Edo State, Nigeria. He has a passion for solving problems and creating solutions that benefit others. Caleb's journey into tech started after his education in Business Administration and his studies at Moat Academy, where he graduated as a full-stack developer. Caleb is dedicated to continuously improving his skills and knowledge in both business analysis and web development. He is enthusiastic about working on projects that have a positive impact and enjoys collaborating with others to achieve common goals. Outside of his professional interests, Caleb loves football and music. He believes in the power of continuous learning and is always eager to take on new challenges that come his way.
